TURKEYS[#]	x7.3

THE AG EFFECT: JOBS

Joe's corn and soybeans get fed to Dave's pigs. Dave's pigs get taken to Brian at the bacon processing facility via Randy's Trucking Service. The bacon gets delivered to Jane at the local grocery where Sharon the banker and Mr. Mitchell, the teacher, pick up that bacon for breakfast on Sunday mornings. At every step, revenues, taxes and jobs are added to the local community and the state — we call this the Ag Effect.
